REMARKS

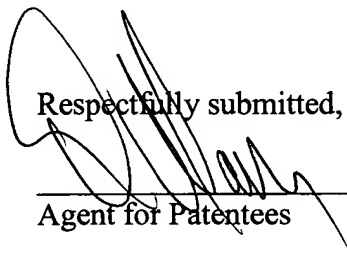

The attached Certificate of Correction corrects obvious antecedent basis problems that presently appear in Claim 4 and Claim 10. At present, Claim 4 recites "[t]he system according to claim 1, where the receiver comprises a web-browser." However, there is no "receiver" specifically recited in Claim 1. On the other hand, Claim 2 recites "a receiver" at subpart (iv). Hence, it is obvious that Claim 4 was originally intended to depend from Claim 2 rather than from Claim 1.

Similarly, Claim 10 recites "[t]he system according to claim 1, wherein the processor comprises providing the primary user with a workgroup activity application." However, there is no "processor" specifically recited in Claim 1. On the other hand, Claim 2 recites "a processor" at subpart (vi). Hence, it is obvious that Claim 10 was originally intended to depend from Claim 2 rather than from Claim 1.

Additional corrections are made to Claims 13, 14, and 15 to correct obvious typographical errors and to clarify what is meant by "a nominated secondary user", "a list of secondary users", "the secondary user", and/or "the second user".

Patentees' undersigned agent may be at (416) 868-3485. All correspondence should be directed to our address given below.

Respectfully submitted,

Agent for Patentees
